AMENDMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action mailed July 30, 2002, Applicants elect Group II, Claims 5-21 drawn to a method for preventing dissemination of CMV in a human and a method for reducing motility in a CMV-infected cell.

The Examiner required election of a species of a single specific disease to be treated in Group II. Applicants elect CMV infection.

The Examiner required election of a specific composition comprising a specified individual active compound. Applicants elect octoclolohepin.

Applicants have separately filed a petition for an extension of time to the present date with payment of the appropriate fee.

Applicants further present some Amendments and Remarks.

AMENDMENTS

IN THE CLAIMS:

Please cancel claims 1-4, 6 and 22-28 without prejudice.
